# Carlos Velasquez

## Lead Product Designer

🔗 Portfolio ✉️ carlos.a.velasquez0290@gmail.com 📱832-628-0218 🌎 Houston, Texas

Lead Product Designer with 7+ years shipping behavior-driven products across subscription, eCommerce, and B2B. At Covenant Eyes, I lead design from sign-up to engagement and run the design system, turning ambiguous problems into shipped, measured results: **+32% retention**, **+26% feature adoption,** and **+70% B2B conversion.** Fluent in frontend and AI-assisted workflows.

## EXPERIENCE

**Lead Product Designer** **November 2023 – Present**

Covenant Eyes

*A mission-driven software company helping individuals overcome pornography addiction.*

- Boosted retention by 32% through the design of a “Lessons” widget that offered timely guidance and emotional support to users.
- Designed a “Commit and Reflect” journey that shortened conversion time and helped users build mindful digital habits, driving a 26% increase in adoption.
- Designed and launched a 30-day onboarding journey that boosted early retention and drove meaningful lifts in conversion from free to paid.
- Partnered with cross-functional leadership to revamp the registration experience, establishing clear baseline metrics around key user actions while streamlining onboarding steps.
- Led design for Accountability Groups, a private peer-support feature, building the research prototype and proposing a paid coaching tier separate from premium courses.
- Validated coaching demand in 1 month via rapid low-code testing (Circle); 50% of users found an ally, triggering a second cohort.
- Led the design and rollout of a scalable design system and its documentation.

**Senior Product Designer** **January 2022 – November 2023**

Academy Sports + Outdoors| Houston, Texas

*Academy is an omnichannel sports retailer offering sporting and outdoor products.*

- Designed systems for high-scale eCommerce environments, launching “Favorites Flow” and “Add to Cart on PLP,” boosting key conversion metrics (+10% signups, +9% AOV).
- Increased checkout flow completion by 12.5% through rapid testing and user behavior analysis.
- Bridged digital and in-store experience by launching a mobile “Wayfinder” feature grounded in user research.
- Co-created the team’s design system and ensured front-end implementation parity through close collaboration with engineers.

**UX Designer** **March 2019 – December 2021**

Sysco | Houston, Texas

*Sysco is the leading supplier of food and equipment for dine-out establishments.*

- Improved usability across B2B platforms, boosting conversion by 70% through improved IA and interaction flows.
- Created a self-service recipe-to-order experience that increased basket conversion and user satisfaction.
- Launched a nationwide hiring microsite that doubled conversions, rooted in deep user understanding and iterative testing.

**Design Engineer / Founder** **September 2017 - Current**

CAVA Ventures |Houston, Texas

*I grow businesses by combining design thinking and marketing, all while nurturing my entrepreneurial spirit.*

- Founded and operated a local irrigation business that generated half a million dollars in annual revenue in 2025
- Designed, built, and shipped Pause, an iOS app that reduces screen time through puzzles, solo with Claude Code. Ran a $1k ad test and used PostHog to find retention bottlenecks.
- Built and published several apps solo with Claude Code, Xcode, and Supabase: Launch the Capy (iOS arcade game, 60 days), Mustard Seed (faith-based content for kids), First 2 Apply (job radar), and a Super Mario Bros. 3 styled portfolio.

**Skills**

Design systems & tooling · Systems thinking · UX strategy · Frontend collaboration (HTML/CSS) · User research · Design Engineer software (Claude Code, Xcode, Cursor, Supabase, Bolt, Webflow, Bubble, Flutterflow) · Cross-functional teamwork · Analytics (PostHog, Quantum, GA) · Usability testing · Bilingual: English & Spanish

**Education**

University of St. Thomas, 2015, Bachelors of Business Administration

**Certifications**

AI Coding (Vibe Coding) Camp (Buildcamp, 2025) · UI Engineering (Maven, 2025) · Product Psychology (Growth.Design, 2025) · UI Design Masterclass (ShiftNudge, 2024) · Design System Bootcamp (Maven, 2024) · Growth Design Bootcamp (Growth.Design, 2023) · Webflow Masterclass (Flux Academy)
